

Residential Incentive Program

PURPOSE:

The purpose of the Existing Residential Incentive Program is to provide an incentive for Homeowners to switch from another energy source to natural gas or replace existing natural gas appliances with new natural gas appliances in residential dwellings in our service territory.

APPLIANCE REBATE SCHEDULE:

Homeowners who switch to natural gas from another energy source by converting qualified appliances or installing new natural gas appliances are eligible for Existing Residential Incentive Program.

Natural Gas Furnace

- Conversion = \$150
- Replacement = \$100

Natural Gas Tank / Tankless Water Heater

- Conversion = \$150
- Replacement = \$50

Natural Gas Logs

- Conversion = \$100
- Replacement = \$50

- 1) You can only qualify for replacement once every 5 years. Replacement does not qualify for a new free water heater or a rebate on a new tankless water heater.
- 2) Hybrid heating systems and space heating appliances do not qualify.
- 3) In order to receive the conversion rebate or replacement rebate, the water heater and/or natural gas logs must be purchased at Chester County Natural Gas Authority.
- 4) The Residential Incentive Program does not apply to large residential developments. Other incentives are offered for large residential developments.
- 5) Maximum rebate per service address for conversion is \$400 and for replacement is \$200.

For additional questions and qualifications about an appliance, please contact our Customer Service Manager or Service Manager at 803-385-3157.
